The mission of EcogeneticsN® is to maintain the constant quest to improve the quality of life of people, through nutraceuticals based on ancient wisdom, but designed according to modern science.

We know that food ingredients affect transcription factors, the expression of proteins and the production of metabolites. Gene regulation impacts health in general, as each nutrient and nutrient interaction regulate metabolic processes in an original way.

Nutrigenomics is the science that studies how nutrients interact with genes, that is, how DNA and the genetic code affect their need for certain nutrients and how they help maintain the balance of their health.

Our products focus on genes

Our goal is always to improve the functioning of our bodies, increase our performance and promote or recover health and well-being.

The production of the nutraceutical and nutrigenomics line of EcogeneticsN® obeys very demanding quality standards, because we believe that the excellence of the products starts in the quality of the raw material, but also in the manufacturing process, which, besides not containing any contaminant, should preserve all the nutrients of an organic and pure product.

Our entire range of products is:

- Produced in laboratories with GMP quality certification
- Free from GMOs
- Raw and pure
- Gluten Free
- Suitable for Vegans (with some exceptions)
- Cruelty Free (not tested on animals)

Our philosophy is very simple:

We design nutrigenomic formulas, we always seek and choose the best raw materials, we manufacture with the highest quality and sell at the lowest possible price.

Regardless of your health needs and concerns, EcogeneticsN® supplements are here to help.

This is our commitment

Be healthy, live happy!

Brain and Motivation

5 HTP PLUS

Everything your brain needs to be at its best performance and disposition.

- **Promotes mental function**
- **Increases serotonin and dopamine levels in the brain**
- **Promotes weight maintenance**
- **Help in depression**

5-HTP Plus, supplied by EcogeneticsN®, contains a synergistic combination of 5-HTP, vitamins, minerals and other nutrients developed to support mood and sense of well-being.

5-HTP is a natural derivative of the seeds of the Griffonia plant, which has the ability to cross the blood-brain barrier without competition for absorption and is significantly more effective than tryptophan for Serotonin synthesis.

This supplement also has Dopamine precursors and synergistic nutrients.

Suggested Use/ Care:

Adults should take 3 capsules, at meal, or as prescribed by your healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended for people below 18 years old, under medical or pharmaceutical prescription/recommendation. Not recommended for pregnant or breastfeeding women. Store in a cool, dry place. Keep out of reach of children.

Indications:

5-HTP Plus may be a nutritional supplement for individuals who wish to support mental function and increase serotonin levels in the brain.

Allergens:

It does not contain any kind of allergens.

Brain and Motivation

Melatonina - Sublingual (Sublingual Melatonin)

The melatonin of EcogeneticsN® is sublingual, that is, it enters directly into the bloodstream through the sublingual veins, which means maximum absorption and efficacy.

- Promotes a totally natural sleep
- Eliminates insomnia
- Improves sleep quality
- Detoxifies cells

Melatonin is a natural hormone nutrient that is synthesized from the amino acid tryptophan by the pineal gland in the back of the brain. In the body, Melatonin regulates sleep cycles, supports normal immune function and protects cells from free radical damage.

The difference for oral melatonin is that it is absorbed in the gut, and its absorption may be higher or lower depending on the person, and it ends up in the liver, where much of the melatonin is destroyed.

Brain and Motivation

Melatonina – Sublingual (Sublingual Melatonin)

Suggested Use/ Care:

Adults should take 1 sublingual tablet daily, or according to the prescription of their health professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended for children under 18 years of age according to prescription / medical / pharmaceutical recommendation. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of the reach of children. Excessive consumption may have laxative effects.

Indications:

Melatonin may be a nutritional supplement for individuals who wish to promote the functioning of the pineal gland and / or to regulate sleep cycles. In travel cases it helps to recover from Jet-Lag with extreme ease. It is also a potent antioxidant.

Note: Melatonin should always be taken sublingually to ensure its bioavailability.

Allergens:

It does not contain any kind of allergens.

Nutrition Information for each sublingual tablet:

Melatonin

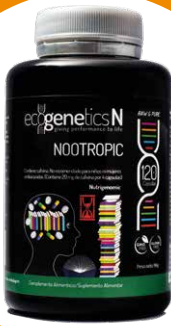

1mg

Brain and Motivation

Nootropic

Discover the full potential of your mind with this incredible 16 nutrigenomics supplement.

- Improves memory
- Improves attention and concentration
- Improves layout
- Reduces Mental Fatigue
- Increases cognitive abilities and creativity

The success of Nootropics is due to the fact that they act as an additive to neurochemicals that are already present in the brain.

These chemicals, including enzymes, hormones and neurotransmitters, contribute to improving cognitive functions.

However, in addition to improving cognitive functions, they also have the ability to increase the blood supply that is directed to the brain, and increase the overall growth of the cerebral nervous system.

Suggested Use/ Care:

Adults should take 4 capsules, at meal, or as prescribed by your healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended for people below 18 years old, under medical or pharmaceutical prescription/recommendation. Not recommended for pregnant or breastfeeding women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Nootropic can be a nutritional supplement for individuals who want support / help in: improving productivity, sleep quality, mood, body-mind coordination, neuroplasticity, lexicon, and circulation to the brain, but also prevent depression, give more stability to the emotions, protect the brain and regulate stress

Allergens:

It does not contain any kind of allergens.

Brain and Motivation

Tranquilidade (ADRENAL SUPPORT)

With 8 proven nutrigenomic effective to eliminate stress and anxiety as well as toning the adrenal glands.

- **Eliminates anxiety**
- **Reduces stress**
- **Fights excessive rage**
- **Tones the adrenal glands**
- **Help with digestive problems**

Serious problems can arise when we are subject to constant stress, such as toxic personal or work environments, professional challenges, etc.

Activation of the stress response system in the long run can lead to various health problems, affecting the cardiovascular, immune, neurological and metabolic systems.

Tranquilidade of EcogeneticsN®, while regulating the emission of cortisol, proceeds to an effective tonification of the adrenal glands, helping us to maintain a constant energy.

Brain and Motivation

Digestive Care

Digestão (Digestion Support)

Digestão has a unique combination of probiotics, prebiotics, herbs and additional nutrients that helps support a healthy digestive system.

- **Helps reduce gas symptoms and swelling**
- **Helps prevent food cravings out of control**
- **Promotes and regulates bowel functioning**
- **Blocks Lectins (proteins present in some foods that interfere with digestion and overall health)**

When our digestive system feels challenged over time through an inadequate diet, oxidative stress from free radicals, mental and emotional stress, heavy metals and overload of toxins, invaders and others, our overall vitality can be compromised.

A slow environment in our digestive system can affect several areas of health. By supporting the digestive function with selective nutraceuticals and research-based plants, we can also support immunity, vitality, cognitive health and more.

Digestive Care

Digestão (Digestion Support)

Suggested Use/ Care:

Adults should take 2 capsules, at meal, or as prescribed by your healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Digestive Care

Enzimas Digestivas (Digestive Enzymes)

Enzimas Digestivas (Digestive Enzymes) are the ideal nutritional supplement for all those who wish to supplement their diets with digestive enzymes from non-animal origin.

In our body, the digestive enzymes are produced mainly in the pancreas and small intestine, and will help in the unfolding of nutrients into nutrients to be later absorbed by the body.

- **It provides enzymes specific to fats, carbohydrates, proteins and also to lactose, with similar efficacy to digestive enzymes, derived from pancreas**
- **It also provides a powerful set of proteolytic enzymes essential for the proper functioning of the organism**

You should take digestive enzyme supplements when you experience the following symptoms:

- Gas and bloating after meals.
- Feeling of food stuck in the stomach (as "a weight in the stomach").
 - Feeling satisfied after eating a minimum amount of food.
- Present stool with food by digest.
- Presenting floating stools permanently.

Digestive Care

Enzimas Digestivas

Suggested Use/ Care:

Adults should take 1 to 3 capsules, at meal, or as prescribed by your healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended for people below 18 years old, under medical or pharmaceutical prescription/recommendation. Not recommended for pregnant or breastfeeding women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Enzimas Digestivas (Digestive Enzymes) are the ideal nutritional supplement for all those who wish to supplement their diets with digestive enzymes, from non-animal origin, favoring the entire digestive process.

Allergens:

It does not contain any kind of allergens.

Vitamins and Minerals

Magnésio Bisglicinato (Magnesium Bisglycinate)

Magnesium is part of more than 300 chemical reactions in our body but, although it exists in many foods, nowadays the lack of magnesium in the population is widespread.

- **Reduces fatigue and fatigue**
- **Promotes the proper functioning of the nervous system**
- **Helps maintain blood pressure levels**
- **Promotes proper functioning of the muscular system**
- **Contributes to the maintenance of bones and teeth**
- **Promotes Immunity**

This supplement is in the form of doubly chelated magnesium and is therefore the most bioavailable Bisaglycinate Magnesium, that is, it does not depend on the gastric juice for absorption, since it uses mechanisms similar to those used by amino acids, being more easily absorbed and used by the body.

Due to its ability to support communication between the nervous system and other systems in the body, it can also help improve mental functions.

Vitamins and Minerals

Magnésio Bisglicinato

Suggested Use/ Care:

Adults should take 1 tablet, at meal, or as prescribed by your healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended for people below 18 years old, under medical or pharmaceutical prescription/recommendation. Not recommended for pregnant or breastfeeding women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Magnésio Bisglicinato (Magnesium Bisglicinate) can be an ideal nutritional supplement for individuals who want support / help to restore the ideal values of this mineral in the body, favoring the reduction of tiredness and fatigue and helping the normal functioning of the nervous and muscular system in the normal synthesis of proteins , in normal psychological function, in maintaining normal bones, in normal energy-producing metabolism, in electrolyte balance, in maintaining normal teeth, in the process of cell division, maintaining blood pressure levels and boosting immunity.

Allergens:

It does not contain any kind of allergens.

Vitamins and Minerals

Mineral

It is a complex with more than 72 naturally occurring ionic minerals in Great Salt Lake, Utah - USA.

- Sea water solution with 6 times higher concentration of minerals and a balanced sodium concentration
- Strengthens bones, joints and teeth
- Nourishes and tones the skin, hair and nails
- Provides the microminerals indispensable for the proper functioning of the organism
- Promotes calcium assimilation
- Help in pH balance

Mineral contains the 72 minerals the body needs daily and without them the vitamins are not absorbed.

It is the most powerful and natural regulator of PH

Uses and Applications:

- Bones and Joints.
- Hair and skin.
- Intestine.
- Calcium assimilation.
- Circulatory health.
- pH balance.
- Replacement of electrolytes.
- Remineralization of water.
- Improvement of performance in athletes, among others.

Suggested Use/ Care:

Adults should take 10 drops in a glass of water, tea or juice for the first 3 days and then increase the dose by 10 drops per day until reaching 40 drops daily divided into two doses of 20 drops each, or according to the prescription of your health professional. Children of 2-3 years should take one drop for every 2.5 kg of weight. Remineralize your drinking water by adding 20-40 drops per 5 liters, or 2-4 drops per glass of water. Should not exceed recommended daily dose.

Indications:

Mineral can be a useful food supplement for those who wish to supplement their diet with more than 72 ionic minerals. In addition to providing our body with all the minerals it needs, it is also a phenomenal natural pH regulator. The use of this supplement can bring benefits at the level of bones and joints, hair and skin, intestine, calcium assimilation, circulatory health and the activation and potentiation of vitamins. It can also be used to remineralize running water, increase sports performance and replenish minerals for both our pets and our plants.

Allergens:

It does not contain any kind of allergens.

Vitamins and Minerals

Vitamina B Complex

High quality supplement with B complex vitamins that will help maintain higher energy levels, avoiding fatigue and helping to control stress and support the entire nervous system.

- All vitamins in the most bio-active and bio-available form
- Promotes the use of carbohydrates
- Has antioxidant properties
- Promotes mental health
- Protects liver function (liver)

B-complex vitamins are important for blood cells, hormones and for the function of the nervous system.

As water-soluble substances, B vitamins are generally not stored in the body in appreciable quantities (with the exception of vitamin B-12). Therefore, the body needs an adequate supply of B vitamins daily.

Vitamins and Minerals

Vitamina B Complex

How to use it / Cautions:

Adults should take 1 capsule a day, or as prescribed by their healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended to persons under 18 years of age according to prescription/medical/pharmaceutical recommendation. Store in a cool, dry place. Keep out of reach of children.

Indications:

The vitamins of the B complex can be used in the treatment of the deficiencies of this vitamin and its manifestations, in several areas as dermatology, pediatrics, among others. This supplement helps in cases of celiac disease and milk crust, malnutrition, restoration of the intestinal flora, in diets of diabetics and ulcers, in cases of stomatitis, chronic alcoholism, anorexia and asthenia, etc.. It has an important action to maintain the highest energy levels of the body and necessary for the control of stress, day by day.

Allergenic:

It does not contain any type of allergens.

Vitamins and Minerals

Vitamina C Alcalina (Vitamin C Alkaline)

This supplement contains a non-acid form of vitamin C, based on calcium ascorbate, combined with powerful antioxidants to support the healthy functioning of the whole body.

- Has an alkaline pH
- Promotes the immune system
- Promotes the circulatory system
- Detoxifies cells and protects them from free radicals

The antioxidant functions of vitamin C appear to have clinical significance in providing protection against free radical damage to the eyes, lungs, blood and immune system.

It is essential for the synthesis of collagen and glycosaminoglycans, which are the building materials of all connective tissues, such as blood vessels, tendons, joint cartilage and bones.

Vitamin C is also essential for normal healing and capillary health.

In addition to vitamin C presents a complex of bioflavonoids, powerful phytochemicals, which in addition to other specificities, help to enhance the benefits of this vitamin.

How to use it / Cautions:

Adults should take 2 capsules, or as prescribed by their healthcare professional. Do not exceed the recommended daily dose. Supplements should not replace a varied diet. Only recommended to persons under 18 years of age according to prescription/medical/pharmaceutical recommendation. Store in a cool, dry place. Keep out of reach of children.

Indications:

Alkaline Vitamin C can be a useful food supplement for those who wish to complement their diet with this unique blend of non-acid vitamin C, citrus bioflavonoids, hesperidin and naringin. Its main benefits are: helping to combat free radicals, helping to prevent cardiovascular disease, promoting eye health, reducing flu symptoms, improving the quality and appearance of skin, hair and nails and promoting the reduction of bad cholesterol levels (LDL).

Allergenic:

It does not contain any type of allergens.

Vitamins and Minerals

Vitamina D3 4000 (Vitamin D3 4000)

Vitamina D3 supplement, the sun's vitamin, which is responsible in our body for the maintenance of more than 2,000 genes, being decisive for a perfect organic functioning of cells, tissues and organs.

- It regulates more than 2,000 genes in our organism
- Delays ageing
- Promotes reproductive health
- Strengthens and regulates the immune system
- Promotes good mood and feeling of well-being

In addition to its traditional involvement in the metabolism of calcium and phosphorus, there is now a growing body of evidence that indicates it as indispensable in the prevention of a series of cancers (colon, breast, lung, pancreas, ovary, prostate), as well as in the formation of serotonin and its antidepressant effect.

Of the two types of Vitamin D, D2 (ergocalciferol) and D3 (cholecalciferol), only the latter fulfils the aforementioned organic functions.

How to use it / Cautions:

Adults should take 1 capsule a day, or as prescribed by their healthcare professional. Do not exceed the recommended daily dose. The supplements should not replace a varied diet. Store in a cool, dry place. Keep out of reach of children.

Indications:

Vitamin D3 4000 is a nutritional supplement for individuals who wish to supplement vitamin D levels in the body. Its main benefits are: cardiovascular health, athletic performance, muscle development, cell formation and longevity, retardation of aging, pancreatic health, reproductive health, skin health, hair, bones, eyes, respiratory health, sleep patterns, hearing, immune system, weight control, digestion and absorption of food, good mood and sense of well-being.

Allergenic:

It does not contain any type of allergens.

Purifier

Toxinas (Toxins)

Powerful nutrigenomic formula, of synergistic combination of fibers and nutrients, which contains a high amount of detoxifying plants, promoting detoxification at the liver and intestinal level, draining toxins present in the body.

- **Promotes a general detoxification of the body**
- **Eliminates heavy metals and toxic substances**
- **Drains the liver and helps keep the digestive system healthy**

With today's diet, it is common to retain undigested foods in the colon, which along with other residues, microorganisms and toxins, ferment in the body and circulate, through the bloodstream, to the entire body.

Keeping the colon clean, with regular detoxification, helps prevent problems such as fatigue, allergies, constipation, lack of appetite, overweight, bad breath and even more serious diseases.

This formula is perfect to help in the initial phase of a diet because it helps in weight loss and relief of fluid retention.

How to use it / Cautions:

Adults should take 2 capsules with a meal, or as prescribed by their health care provider. Do not exceed the recommended daily dose. Supplements should not replace a varied diet. Only recommended to children under 18 years of age according to prescription/medical/pharmaceutical recommendation. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Toxins is a supplement designed to help in detoxification at the liver and intestinal level, but also chelates heavy metals helping in their elimination from the body. It is also recommended to use at the beginning of a diet, favoring in addition to cleansing the body, an aid to eliminate excess liquids.

Allergenic:

Does not contain any type of allergens.

Cardiovascular health

Co-Enzyme Q10

Supplement that provides Coenzyme Q10 naturally fermented, without sugar, dyes or artificial flavors. It aims to help complement coenzyme Q10 requirements that are not met with the diet, through the biosynthesis of the molecule.

- Indispensable for oxygen to be carried to all cells
- Increases energy and sense of vitality
- Promotes cardiac muscle function

It is very important for the maintenance of blood vessels and the function of the heart muscle.

Patients taking statins may develop deficiencies in coenzyme Q10 and may require supplementation.

Since almost all cellular activities are energy dependent, coenzyme Q10 is essential for the health of all human tissues and organs, and is a naturally occurring antioxidant nutrient that delays the formation of free radicals in biological systems.

How to use it / Cautions:

Adults should take 1 tablet a day with a meal or as prescribed by their healthcare professional. Do not exceed the recommended daily dose. Supplements should not replace a varied diet. Only recommended to persons under 18 years of age according to prescription/medical/pharmaceutical recommendation. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Coenzyme Q10 can be a useful complement for individuals whose dietary requirements for coenzyme Q10 are not met by biosynthesis of the molecule and may be useful for cardiac patients.

Allergenic:

It does not contain any type of allergens.

Nutritional Information

Coenzyme Q10 in the form of Ubiquinone

Cardiovascular health

Krill + DHA PLUS

Krill + DHA Plus is a formula for those who wish to supplement their diet with the most bioavailable source of Omega 3, krill oil. It is a supplement for those who wish to improve their cardiovascular and cerebral functioning.

- **Highly bioavailable source (phospholipids) of Omega 3 with almost 500mg of EPA/DHA per capsule**
- **The great food of the brain and cells**

Antarctic Krill Oil is made from krill with a high percentage of DHA and choline, which are essential for adults, but also for the normal development of the fetal and child brain! It contains omega-3 fats, eicosapentanoic acid (EPA) and docosahexanoic acid (DHA).

Most fish oils are in the form of triglycerides, but Krill oil is in the form of phospholipids, which is more stable and has the addition of astaxanthin, which helps the additional stabilisation process, with all the other recognised benefits of this substance.

This formula, enriched with EPA-DHA from fish oil, cold processed and free of heavy metals and contaminants, gives your body the possibility to make the most of these two exceptional sources of omega 3.

How to use it / Cautions:

Adults should take 1 capsule a day with a meal or as prescribed by their healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended to persons under 18 years of age according to prescription/medical/pharmaceutical recommendation. Store in a cool, dry place. Keep out of reach of children.

Indications:

Krill+DHA can be a nutritional supplement for individuals who want support / help to cover the daily nutritional needs of Omega 3. Krill oil is the richest and most bioavailable source of omega-3, in the form of phospholipids that feed your brain and protect your cells and your heart, also has an anti-inflammatory action as it is a precursor to anti-inflammatory prostaglandins.

Allergenic:

Not suitable for people with allergies to fish or seafood.
May contain traces of crustaceans.

Nutritional information per capsule

Eicosapentaenoic Acid (EPA)	125mg
Docosahexaenoic Acid (DHA)	290mg
Astaxanthin	0,10mg

Note: 100 grams of product contains approximately 732 kcal

Cardiovascular health

Liponutrientes (Liponutrients)

Formula featuring selective kinase response modulators (SKRMs) that improve insulin tolerance and lipid parameters. SKRMs derived from herbal compounds have the ability to modulate specific cell signaling pathways, which can play a role in chronic disease.

- **Promotes regulation and balance of cholesterol values**
- **Prevents lipid and cholesterol oxidation**

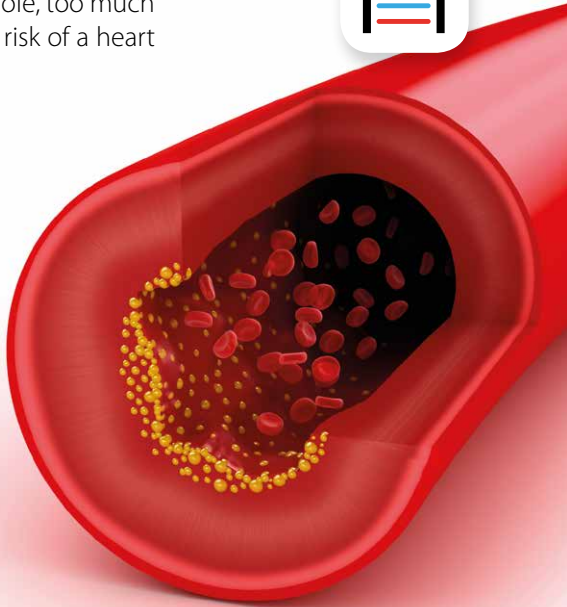

Although cholesterol plays an important role, too much cholesterol in the blood can increase the risk of a heart attack or stroke.

It provides 90 mg of plant sterols per dose, according to international recommendations and high quality nutrition for patients with hypercholesterolemia.

Unused cholesterol can build up in the arteries causing them to harden or narrow, decreasing their ability to perform their function properly.

This condition, known as atherosclerosis, can lead to angina (chest pain), heart failure (the heart cannot pump the blood properly), or arrhythmia (irregular heartbeat or rhythm).

How to use it / Cautions:

Adults should take 3 tablets a day, with a meal, or as directed by their healthcare professional. The recommended daily dose should not be exceeded. Supplements should not replace a varied diet. Only recommended to persons under 18 years of age according to prescription/medical/pharmaceutical recommendation. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Liponutrients can be a nutritional supplement for individuals who want to achieve healthy cholesterol levels. Dietary supplements should not replace a balanced diet.

Allergenic:

It does not contain any type of allergens.

Special Formulas

Células Plus (Cells Plus)

One of the most effective nutrigenomic supplements to protect your cells and your health. This formula is extraordinarily rich in polyphenols that help the body maintain higher energy levels, protect the cardiovascular system, promote better digestion and healthier skin.

- Strengthens the immune system
- Models hormonal, anti-inflammatory and anti-tumor function
- Helps to detoxify the liver and promote its functioning
- Helps inhibit metastasis

This unique formula is designed for:

- Activate the Nrf2 genetic pathway that regulates the production of important antioxidants such as glutathione and superoxide dismutase (SOD) as well as detoxification enzymes, including glutathione S-transferase, while lowering the regulation of inflammatory factors, such as NF- κ B;
- Inhibit angiogenesis and, consequently, metastasis;
- Model hormonal, anti-inflammatory and anti-tumor function;
- Strengthen the immune system and detoxify the liver.

Our cells are increasingly subject to enormous pressures due to environmental factors in which diet and lifestyle play a decisive role, carrying a large number of free radicals and inflammatory factors to our body.

How to use it / Cautions:

Adults should take 2 to 4 capsules a day, or as prescribed by their healthcare professional. Do not exceed the recommended daily dose. Supplements should not replace a varied diet. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of the reach of children.

Indications:

Células Plus is a nutritional complement, extremely rich in polyphenols, for individuals who wish to increase energy levels and vitality, protect the cardiovascular system, promote better digestion and healthier skin. It is also ideal to accompany oncological treatments, due to its inhibiting properties of angiogenesis and, consequently, metastasis, and for those who wish to strengthen the immune system and detoxify the liver.

Allergenic:

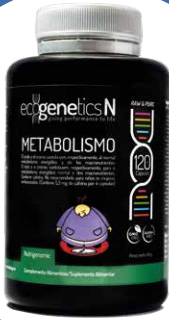

Does not contain any type of allergens.

Special Formulas

Metabolismo (Metabolism)

Nutrigenomic Metabolismo is scientifically designed to support a healthy metabolism, maintain balanced blood sugar levels, as well as decrease appetite for sweets and fat absorption.

- **Promotes optimal weight attainment**
- **Helps to balance healthy blood sugar levels**
- **Promotes normal secretion and sensitivity to insulin and leptin (appetite suppressing hormone)**
- **Promotes healthy regulation of Grelina (the hormone responsible for the feeling of hunger)**
- **Promotes a healthy metabolism of carbohydrates, fats and proteins**

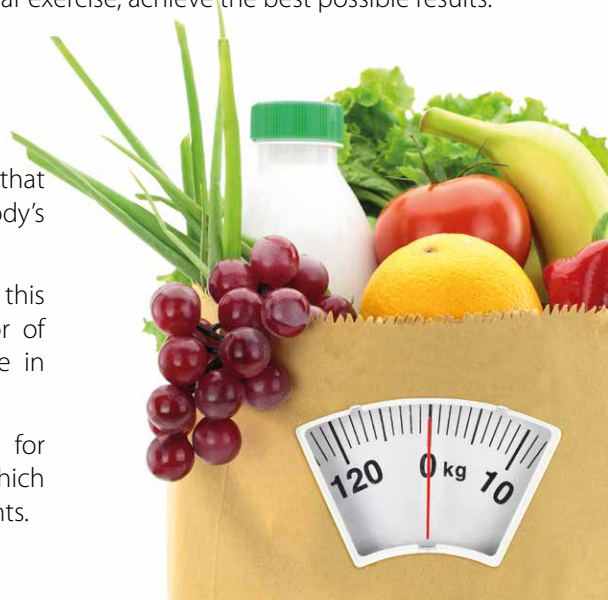

This formula combines 14 nutrigenomics deeply studied by science and highly effective to give health professionals a valuable tool to, in combination with a genetically appropriate diet and regular exercise, achieve the best possible results.

Leptin and Grelin are two hormones that have a recognised influence on the body's energy balance.

Leptin, as a long-term mediator of this energy balance and as a suppressor of food intake, plays an important role in weight reduction.

Grelin is a hormone responsible for generating the sensation of hunger, which warns us of the need to ingest nutrients.

How to use it / Cautions:

Adults should take 4 tablets a day, with a meal, or as prescribed by their health care provider. Do not exceed the recommended daily dose. Supplements should not replace a varied diet. Only recommended to children under 18 years of age according to prescription/medical/pharmaceutical recommendation. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Metabolismo is a nutritional supplement for individuals who wish to support a healthy metabolism, maintain balanced blood sugar levels, as well as decrease appetite for sweets and fat absorption.

Special Formulas

Olhos Sãos (Healthy Eyes)

Olhos Sãos is a food supplement with a combination of astaxanthin, lutein, zeaxanthin and blueberries, thus bringing together what are considered to be the best and most important nutrients known for eye health.

- **Protects the skin and eyes from the harmful effects of solar radiation**
- **Protects the entire eye area from the effects of free radicals**
- **Prevents aging of eye tissue**
- **Prevents vision loss**

This supplement contains an ideal dose of natural astaxanthin which is established as one of the most powerful antioxidant, and in addition to many other benefits, protects the eye from the harmful effects of free radicals, improves and protects the skin both in its texture and by eliminating wrinkles and unwanted marks and can even cure certain skin problems, substantially reducing the risk of skin cancer. It also promotes an overall younger appearance.

It also reduces the harmful effects of UVs on DNA and still works as a powerful natural anti-inflammatory and protective of the cardiovascular system with extraordinary interest for athletes.

How to use it / Cautions:

Adults should take 1 capsule a day, or as prescribed by their healthcare professional. Do not exceed the recommended daily dose. The supplements should not replace a varied diet. Only recommended to children under 18 years of age according to prescription/medical/pharmaceutical recommendation. Not recommended for pregnant or lactating women. Store in a cool, dry place. Keep out of reach of children.

Indications:

Olhos Sãos is a nutritional supplement for individuals who want support to cover nutritional needs, presenting a combination of astaxanthin, lutein, zeaxanthin and blueberry, which, nutritionally, are considered to be the best and most important nutrients known for the health of the eyes, providing a great help in combating the aging of eye tissues and the development and proliferation of some pathologies of the eye as: glaucoma, presbyopia, macular degeneration and cataracts.

Allergenic:

Does not contain any type of allergens.

Ossos Sãos(Healthy Bones)

Ossos Sãos is a supplement with 15 nutrigenomics proven effective to maintain or promote the health of bones and joints.

- It allows the replacement of minerals (macro-minerals) and other nutrients for maintenance and renewal of bones and joints
- It offers macrominerals in their most bioavailable form, essential for the proper functioning of the body

Bone maintenance (known as “remodeling”) and bone density depend largely on essential nutrients - such as calcium, vitamins D and K, boron, magnesium and manganese - that may be lacking in many modern diets.

Joint health can benefit from the intake of glucosamine and chondroitin and other nutrients that support the integrity of cartilage.

Healthy Bones promotes musculoskeletal health, including support for healthy bone mineralization and remodeling, as well as support for connective tissue health and for solving problems such as inflammation and pain, without any side effects.

How to use it / Cautions:

Adults should take 4 capsules a day, or as prescribed by their healthcare professional. Do not exceed the recommended daily dose. The supplements should not replace a varied diet. Only recommended to children under 18 years of age according to prescription/medical/pharmaceutical recommendation. Store in a cool, dry place. Keep out of reach of children.

Indications:

The Ossos Sãos is a nutritional complement that presents a combination of 15 nutrigenomics proven effective to maintain or promote the health of bones and joints. Thus, this formula can favour pathologies of the osteo-articular area.

Allergenic:

It does not contain any type of allergens.

Special Formulas

Sem Inflamação (No Inflammation)

Sem Inflamação is a 100% natural anti-inflammatory that combines 14 proven effective nutrigenomics to modulate inflammation and pain, providing effective pain relief and no side effects.

- **Deactivates the factor (NF-KB) responsible for chronic inflammation**
- **Eliminates inflammation, pain and cell oxidation**

Selective response kinases modulators, or SKRMs, are nutritional substances that can bring kinases signaling back to balance, helping to restore healthy gene signaling, favorably influencing gene expression and reversing the effects of chronic pathologies.

With 14 proven effective nutrigenomics to modulate inflammation and pain:

- Provides effective pain relief without side effects.
- Modulates the production of prostaglandins E2 (PGE2) in specific target cells.
- It targets selective kinase response modulators (SKRMs) to modulate the activity of kinases in the interest of good health.
- The synergy of oleanolic acid and Rosmarinus Officinalis provides high efficacy even with a small dose and is very cost-effective.

Special Formulas

An ideal state of health and the highest physical and mental performances are only possible in a body properly nourished with what makes it truly functional.

There is a group of 101 nutrients that are indispensable for vibrant health. There are 101 essential nutrients so that we can keep the disease at bay and have the best quality of life.

YOUR BODY NEEDS 101 ESSENTIAL NUTRIENTS EVERY DAY

EcogeneticsN® Laboratories are honored to provide you with all these nutrients vital for the health of your body, in a bioavailability of almost 100%, and in particular the set of 72 ionized minerals that will not only replace minerals essential to the proper functioning of your body, but will also regulate the pH and also electrically regulate your cellular structures and the overall energy of your body.

72 Minerals + 16 Vitamins + 1 Fat Acid

Due to the degraded state of the soil, food presents a deficit of nutrients, even if they are biological, making nutritional supplementation essential, so that the body can play its role in the best possible way, giving it energy and promoting health.

101 ESSENTIALS NUTRIENTS PACK

The Essential Pack is designed to provide your body with all the essential nutrients it needs every day to work in full, feeling more energy, mental and physical vitality.

Always seeking to use the raw materials of higher quality and with a perfect synergy, achieving a bioavailability much higher than usually found in the market.

Make a balanced diet and complement it with nutritional supplements of superior quality. Believe me, your health will thank you

Be healthy, live happy!
